

DEPARTMENT OF HIGHER EDUCATION RESEARCH
SCIENCE AND TECHNOLOGY

2024 - 2025 National Online Application System Cycle

GRACE PERIOD (9TH - 14TH DECEMBER 2024) ONE DAY REMAINING

The Department of Higher Education, Research, Science and Technology (DHERST) wishes to inform all Grade 12 school leavers, non school leavers, parents and the general public that the Grace Period has **one day remaining**. The Grace period commenced on the 9th December and will end on **14th December (11:59pm), 2024**. The 2024 Selection for 2025 admission will be officiated on the **18th December, 2024**, by the Minister for Higher Education Research Science and Technology, Hon. Kinoka Hotune Feo, MP.

Selection Results will be published on December 20th, through the applicants NOAS Account under their **MyStatus** tab.

DHERST also wishes to advise the General Public that all formal announcements will be made through the NOAS landing page, **MyStatus** notice board, DHERST social platforms or by authorised press statements.

Below are frequently asked questions by applicants during the Grace Period:

- **Why are my choices highlighted in red?**

You will only be able to see and choose programmes which your final results meet(s) the minimum programme requirement. This means, you will now have lesser programmes available to choose from - based on your final results. A red highlight on a programme name indicates that your final results did not meet this programme requirement. You must then change your choice to one, based on your available and back up programmes. A choice not highlighted does not mean you have been selected. It means - you have met this programme's minimum requirement, and after Selection - you will then know whether you were successful for this programme or not.

- **What do I do if I forget my password?**

On the NOAS login page there is a *Forget your password?* option available to reset your password. When you click this option, an email link will be sent to the email address you provided in your **MyData** section of your NOAS account. Using that link you can be able to reset your password.
